Environmental Leadership Program (ELP)

The Louisiana Environmental Leadership Program (ELP) is a voluntary program led by the Louisiana Department of Environmental Quality (LDEQ) in partnership with businesses, federal entities, municipalities, academic and community organizations to promote a cleaner and better environment for Louisiana. Any organization committed to improving the quality of Louisiana's environment through pollution prevention, waste reduction and/or other environmental improvements is eligible to join the program as a participating member.

Participants in this program must commit to supporting the ELP core principles outlined below:

- Participants should minimize adverse impacts on human health and the environment; this should be reflected in their policies and procedures, regulatory and business decisions;
- Participants should work towards implementing internal management systems which lead to continuous improvement in their environmental performance;
- Participants should use the waste management hierarchy, (source reduction, recycling, treatment, and disposal) as guidance for managing environmental issues and set goals to help improve the state's air, water, and land;
- Participants should be proactive in communicating with stakeholders regarding environmental matters and concerns

Membership Requirements

- Submit a completed ELP Enrollment Form.
- Submit a brief plan that highlights and describes your pollution prevention and waste reduction goals.
- Participating members must provide yearly updates so the ELP can track progress towards goals.
- Membership is renewed every three years upon demonstrated measurable results.

This is strictly a voluntary program. Plans and goals may be modified at any time, and not meeting the goals will not be used by the LDEQ in any judgmental manner whatsoever.

Membership Certification

I commit to the above guiding principles set forth by the Environmental Leadership Program and will develop and work towards goals to improve and preserve Louisiana's environment.

Signature/Title

Date

This completed ELP Enrollment Form and Pollution Prevention plan should be submitted by December 1, 2009 to:

Linda M. Brown, Environmental Scientist Senior
Louisiana Department of Environmental Quality
